## Current employment

2017 –

### Brain and Mental Health Research Hub

MICCN, Monash University, Australia

*Research Fellow, Head of Computational Modeling*

Employed as a research fellow at Monash University with the school of Psychology (MICCN) under the Brain division of the Brain and Mental health (BMH) research hub lead by Prof. Alex Fornito. This role includes:

- Setting up collaborative projects between BMH and Prof Gustavo Deco at the Universitat Pompeu Fabra, Barcelona.
- Employing and developing physiological models to understand resting state fMRI networks
- Being the Head of Computational Modeling with the Brain division of BMH research Hub
- Supervising Honours, and PhD students within BMH

## Education

2012

### Doctor of Philosophy (Physics)

University of Sydney

Thesis: *Spatiotemporal Hemodynamics: From Theory to Experiment*

(December) Supervised by Prof. Peter Robinson (principal), Prof. Michael Breakspear (associate), Dr Mark Schira (associate) and Dr Peter Drysdale (associate).

2006

### Bachelor of Science (Honors I)

University of Sydney,

Thesis: *Wavelet analysis of Brain activity*

Supervised by Prof. Peter Robinson (principal), Prof. Michael Breakspear (associate).

2005

### Bachelor of Science

University of Sydney,

Majors in Physics and Mathematics.

## Expertise

**Research areas** fMRI, MRI, Spatiotemporal Hemodynamics, Modeling, Vision, Neural Field Theory, Networks, Data analysis, Image processing, Deconvolution, vistaTools, mrTools & SPM.

**Programming:** Proficient in MATLAB, &  $\text{\LaTeX}$ . Familiar in Python, C, C++, CSS, & Java.

**Software:** Freesurfer, SPM, FSL, AFNI, mrTools, mrVista.

## Research experience

2015 – 2017	<b>University of Nottingham</b> <i>Research Fellow, July 2015 – July 2017</i> Worked with Prof. Susan Francis, Dr Karen Mullinger, and Rosa Sanchez-Panchuelo on Laminar fMRI, Ultra-high field neuroimaging and EEG-fMRI at 7T.	Nottingham, Nottinghamshire, UK
2013 – 2015	<b>University of Sydney</b> <i>Research Associate, January 2013 – July 2015</i> Worked with Prof. Peter Robinson and Dr. Mark Schira on projects with Spatiotemporal hemodynamics, Brain Connectivity, Neural Field Modelling and co-supervised 3 PhD Students.	Camperdown, NSW, Australia
2012 – 2013	<b>Queensland Institute of Medical Research</b> <i>Research Assistant, July 2012 – January 2013</i> Worked under Part time (0.5) with Prof. Michael Breakspear projects on Deconvolution of fMRI data.	Herston, QLD, Australia
2012 – 2013	<b>University of Sydney</b> <i>Research Associate, July 2012 – January 2013</i> Worked under Part time (0.5) with Prof. Peter Robinson on projects with Spatiotemporal hemodynamics.	Camperdown, NSW, Australia
2005 – 2006	<b>The Blackdog institute</b> Research Assistant to Prof. Michael Breakspear Casual work to analyse Functional Magnetic Resonance Imaging (fMRI) data, and electrical encephalography (EEG). Also worked on a neural mass model that resulted in a publication.	Randwick, NSW, Australia

## Honors and awards

2017	<b>PLOS Early Career Travel Award Program</b> Awarded \$500 USD to attend ISMRM 2017 in Hawaii see: <a href="http://blogs.plos.org/thestudentblog/2017/08/08/how-science-is-communicated-impacts-how-science-is-received-early-career-researchers-share-their-take-on-the-future-of-scicomm/">http://blogs.plos.org/thestudentblog/2017/08/08/how-science-is-communicated-impacts-how-science-is-received-early-career-researchers-share-their-take-on-the-future-of-scicomm/</a>
2016	<b>Guarantors of Brain Travel Grant</b> Guarantors of Brain Travel Grant to attend the Organization for Human Brain Mapping Annual Meeting in Geneva, Switzerland travel Award, £600 GBP.
2013	<b>Trainee Abstract Travel Award</b> Organization for Human Brain Mapping Annual Meeting in Seattle, WA, USA travel Award for abstract: "Spatiotemporal neural dynamics from fMRI: Deconvolution with a spatiotemporal HRF", \$700 USD.
2007 – 2010	<b>Australian Postgraduate Award Scholarship</b> Australian government award. Stipend for \$20,000 AUD p/a while taking a research degree.
2006	<b>Science Foundation for Physics, Scholarship No. 3</b> Faculty of Science, University of Sydney Prize for \$1000 AUD.
2005	<b>Summer student scholarship</b> Neuroscience Institute of Schizophrenia and Allied Disorders (NISAD) award: \$2000 AUD, for work on "Multiscale character of evoked cortical activity" with Prof. Michael Breakspear.
2003 – 2005	<b>Faculty of Science Dean's List of Excellence in Academic Performance</b> University of Sydney award for Years 1–3 of the undergraduate degree for having an average of High Distinction (85/100) or greater.
2003 – 2004	<b>Talented Student Program</b> University of Sydney first and second year program for students to undertake in projects in various research groups. First year: electron microscopy unit (Vicki Keast), Second year: Complex Systems (Michael Breakspear).

## Publications

Characterization of physiologic and neural fluctuations in sensory-evoked fMRI of the primary visual cortex. *14th Annual Meeting of the Organization for Human Brain Mapping*, Poster No. 491, Melbourne, VIC, Australia.

## Teaching & supervision

2016	<b>Undergraduate Teaching</b> Assisted in teaching 4th year undergraduate physics module : Image processing at the University of Nottingham. Involved in marking student presentations as well as creating and supervising 2 student projects (2 students per project).
2016	<b>Modeling Seminar Series</b> Co-organized and gave 2 Lectures of a Modeling seminar series at the Sir Peter Mansfield Imaging center. Six lectures were scheduled with an attendance of $\approx 20$ members that included staff from around the University of Nottingham.
2013 –	<b>Associate Supervisor</b> Honors Student (4th year) Thomas Lacy (2013), PhD Candidate Thomas Lacy (from 2014) and PhD Candidate James Pang (from 2015).
2014	<b>First year informatics course: INFO 1903</b> Guest Lecture: "Hemodynamics: from Theory to experiment."
2011 – 2013	<b>Supervisor</b> Third year Physics special project students: Thomas Lacy (2011) & Nikhil Vasan (2013).
2011 – 2012	<b>Teaching Assistant</b> Redesign of Computational Physics module in Physics II.
2010 – 2012	<b>Laboratory Supervisor</b> Physics II, Computational Physics.
2006 – 2009	<b>University Tutor</b> Computational Physics II, Physics I, and Computational Science (First year course).

## Academic Service

1. Organizer of Complex systems seminar series. (2013–2015)
2. Webmaster, Complex Systems group <http://physics.usyd.edu.au/complex-systems/> (2015)
3. Reviewer: Neuroimage (5 papers), Neural Networks (1 paper), Frontiers in Neuroscience (1 paper), Human Brain Mapping (Conference Abstracts) (60 Abstracts in total), Human Brain mapping (1 paper), PLoS Computational Biology (1 paper), & Journal of Neuroscience Methods (1 paper).
4. Volunteer for University of Sydney Open day.
